

Cetera 60'
Multispace Yacht
- Features in Detail -

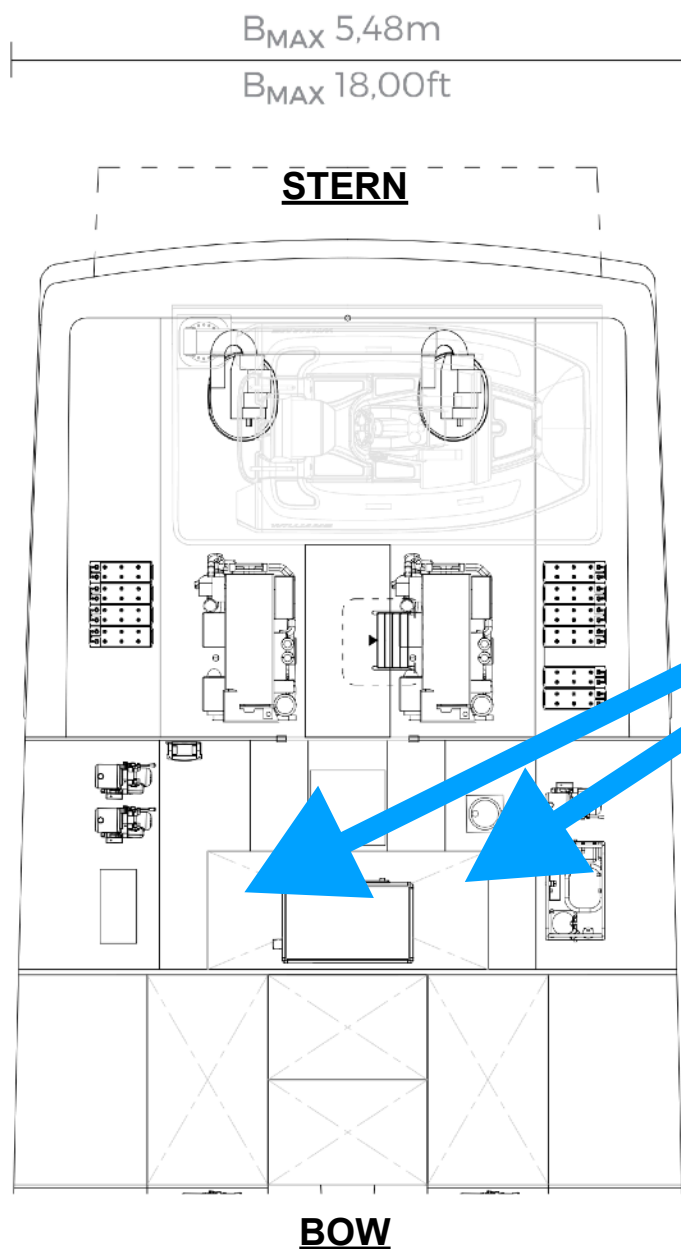

Second mooring station in the well :

There are joystick control and head maneuver propeller (bow thruster) controls in the second station located in the rear cockpit of the port side.

It offers very comfortable use especially when approaching the marina from the stern.

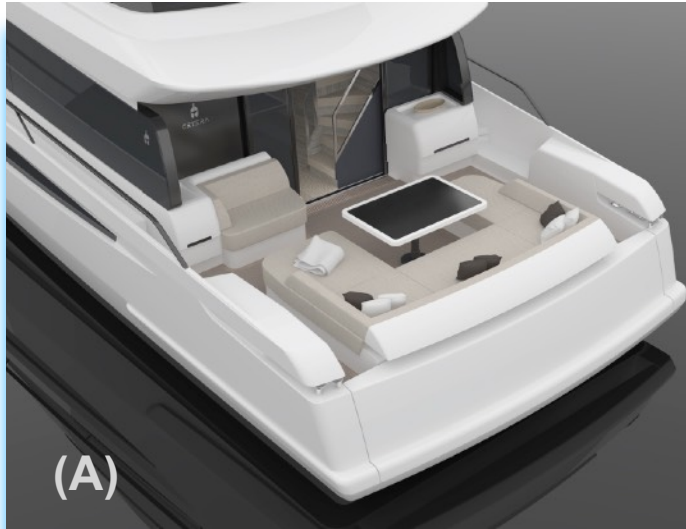

LOWER DECK

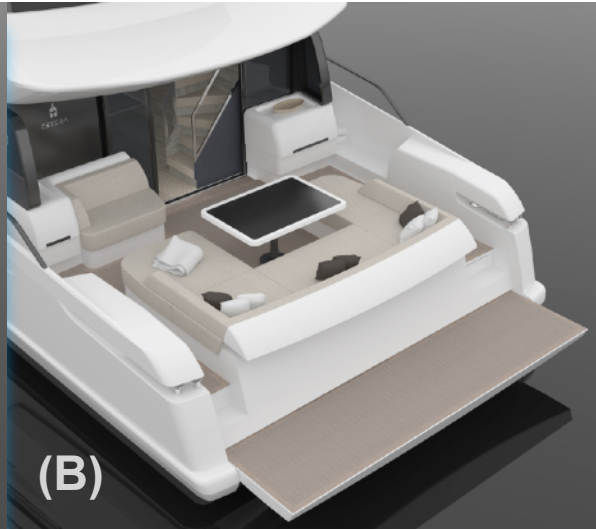

GYRO STABILIZER Quick x 16 (2 Sets) :

MC2 Quick Gyro stabilizers can reduce boat roll up to 95%, are very effective at speed as well as at anchor.

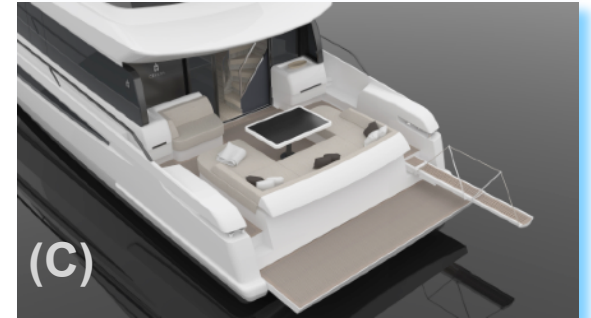

Gyro stabilizers offer unique features and are the result of careful research, aimed at achieving highly competitive performances and assuring maximum safety. With MC2 Quick Gyro on board, the comfort is guaranteed and you can enjoy all your special moments with rough sea too.
